RE: Courtesy Inspection

10-08-06

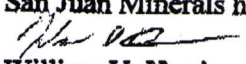

Dear Sir's,

I would like to request a Courtesy Inspection of a facility I am constructing for San Juan Minerals located on my property to insure the facility is being properly set up.

I have kept all my records and training up to date to the best of my knowledge as I was requested to do before.

I currently have no intention of restarting my portion of the previous mine I worked before.

San Juan Minerals has agreed to rent a portion of my property for their mining operation.
